

CYBER SECURITY - SURVEY 2017

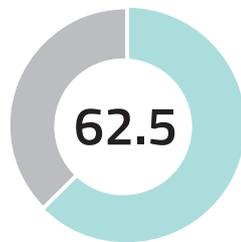

BIRGER. CYIndex measures the respondents' Cyber Security posture in the Indian Ocean Islands (IOI), including Madagascar, Mauritius and Seychelles. BIRGER. commissioned the survey carried out during the second semester of 2017.

A high index demonstrates a mature approach towards Cyber Security, a moderate index indicates that the Cyber Security posture needs to be improved, while a low index indicates that current Cyber Security practices lag behind international standards.

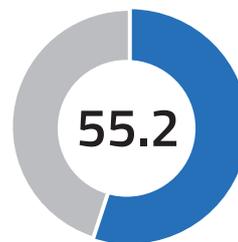

CYIndex

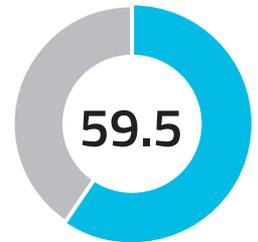

Madagascar

Mauritius

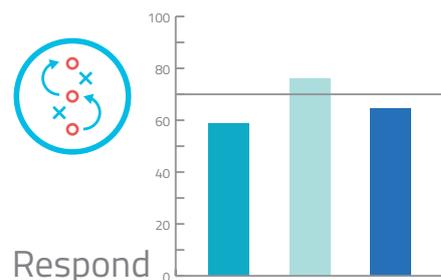

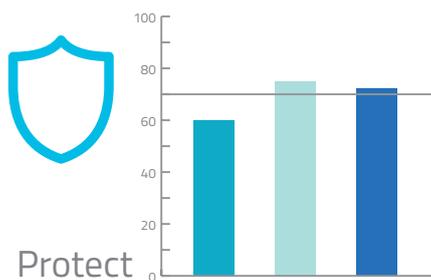

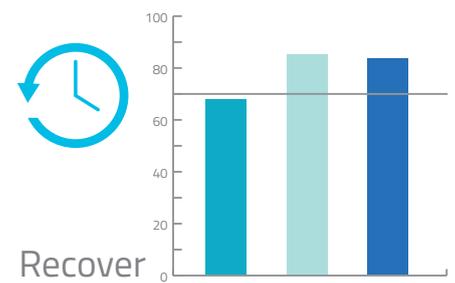

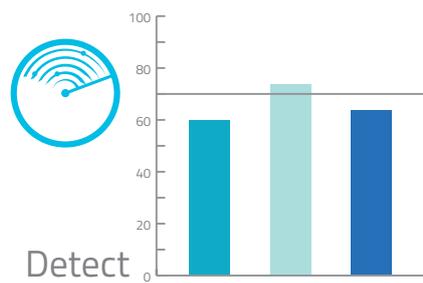

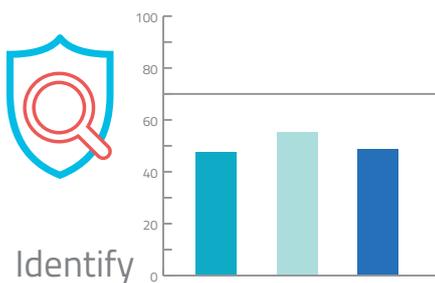

Seychelles

IOI

Low maturity: 0 - 50 | Moderate maturity: 51 - 70 | High maturity: above 70

CYIndex Key Functions

■ Madagascar ■ Mauritius ■ Seychelles
