

BIRGER.

Today, business environment is unpredictable due to the nature, dynamics and speed of change.

Business leaders are challenged whilst planning ahead for the next financial year let alone for the medium to long term strategic development of their business.

Politics, economics and social factors are intermingled where simple cause and effect relationship does not exist anymore. This complex ecosystem in which businesses evolve is further exacerbated with the advent of new technologies for both business and private use.

Business leaders must be prepared to address these challenges which inhibit their business resiliency and adaptability when they execute their strategies.

BIRGER.

**TECHNOLOGY.
SECURITY.
RESILIENCY.**

At BIRGER, we have developed a unique end-to-end business model to assist our customers to plan forward, carry out their daily operations, protect their key assets, manage risks and ensure continuity in their activities. Our unique end-to-end business model hinges on TECHNOLOGY, SECURITY and RESILIENCY.

TECHNOLOGY

BIRGER. has delivered technology services and solutions to the Banking, Insurance, Retail and Telecommunication industries as well as to Governments for decades. We have developed specific expertise in self-service terminals, payment solutions, enterprise systems, network and communications, trusted identities and secured transactions.

SECURITY

At BIRGER. we have been deploying both physical and logical security solutions covering premises, IT infrastructures, communication networks and self-service terminal for decades.

BIRGER's Security Services also cover cyber security consultancy and audits as well as a Cyber Defence Centre located in Mauritius powered by Symantec to deliver Managed Cyber Security Services.

RESILIENCY

We have pioneered business continuity activities in Mauritius by providing consultancy and training to raise the awareness of our customers to the need of having business continuity plans. Our subsidiary ContinuityMauritius, assists our customers to resume their activities timely.

PAN AFRICAN FOOTPRINT

BIRGER. has expanded its operations from Mauritius to the Indian Ocean Islands, Eastern and Southern Africa.

We operate hubs to cover specific geographical areas. This operating model enables us to provide timely on-site local support and services to our customers from our local offices.

We recognise that our future success hinges on local competent professionals. Hence, we collaborate with local universities from Mauritius, Madagascar and Rwanda by endorsing practicum projects as well as by offering internships to both under and post graduate students.

-  BIRGER's local offices in 9 territories
-  BIRGER's African coverage

EDUCATION

Our education programme at BIRGER. has evolved over the years, where continuous learning has become a core skill for our employees.

BIRGER. nurtures and up-skills its employees over their careers using its e-learning platform, Partner'IT, for in-house trainings.

Employees enrol on regular technical courses and management development programmes.

Since we have accumulated knowledge and successfully trained our employees over the past six decades, we are able to offer practical trainings to our customers in areas related to Technology, Security and Resiliency.
